

Everything must go – 2 Cars, all spare parts, equipment and tools.

I have 2 - 2004 78" GT's and pit carts. I rebuilt both cars at the beginning of the 2009/2010 season and then we only raced about 5 races. New body panels, all new nerf bars, new micron 4's, new axles, all advanced shocks sent in and rebuilt, new ceramic bearings, new banditos lightweight hub and gears with #35 chain, and custom paint. These cars have the best of everything and are the fastest out there. With the right driver and set up you will always be in the top three.

Each have two motors for each car 160's and 120's. All four are Dirk's and are fast . Track records at Tucson and Albuquerque.

I also have multiple new spare parts for everything on both cars, two complete gear sets, two sets of rebuilt trimbles, two complete sets of smoker quick hubs and gears, #40 chain. Every set up and or specialty tool needed to go fast, tire racks two car covers, tire tools, etc.

I also have 1 year old Banditos set up table and Tanner 8" scales.

Over 20k invested for everything I have. Would like to sell everything as a package deal for 12k but feel free to call or email me if you see something you like or need. My cell is 480-201-4051 or email me at wandrewgoforth@gmail.com
